

SCOTT TOWNSHIP AUTHORITY

RESOLUTION 12-21-09

RESOLUTION OF THE BOARD OF THE SCOTT TOWNSHIP AUTHORITY, ADOPTING RULES AND REGULATIONS GOVERNING USE OF THE SEWER SYSTEM; IMPOSING USER CHARGES TO BE COLLECTED FROM THE OWNER OR OCCUPANT OF EACH PROPERTY SERVED BY THE SEWER SYSTEM; PROVIDING FOR PAYMENT AND COLLECTION OF SUCH USER CHARGES; IMPOSING TAPPING FEES, CONNECTION FEES AND CUSTOMER FACILITIES FEES AGAINST THE OWNERS OF IMPROVED OR UNIMPROVED PROPERTY SERVED BY SUCH SEWER SYSTEM AS APPLICABLE; PROVIDING THE MANNER OF PAYMENT OF SUCH TAPPING, CONNECTION AND CUSTOMER FACILITIES FEE AND ENFORCEMENT OF PAYMENT THEREOF.

SECTION I. ADMINISTRATION

Article 101. Administration.

Except as otherwise provided herein, the Authority shall administer, implement, and enforce the provisions of this Resolution.

SECTION II. DEFINITIONS

Unless a provision or the context specifically states otherwise, the following terms and phrases, as used in this resolution, shall have the following meanings hereinafter designated:

Article 201. Authority. The elected and appointed members of the Scott Township Authority, and its duly authorized agents or representatives. The Township is Scott Township, Columbia County, Pennsylvania.

Article 202. Building Sewer. A sewer conveying wastewater to the Sewage Collection System consisting of the Connection Lateral and the Customer Sewer.

Article 203. Clean Water Act (CWA). The common name for the Federal Water Pollution Control Act. Public Law 92-500; 33 U.S.C. 1251 et seq.; legislation which provides statutory authority for both NPDES and Pretreatment Programs

Article 204. Collection System. See Sewage Collection System.

Article 205. Combined Sewer. A sewer designed to receive both sewage and storm water runoff.

Article 206. Commercial Use. A property which is intended to be used for the purpose of carrying on a trade, business or profession, or for social, religious, educational, charitable, or public uses.

Article 207. Compliance. Adherence to conditions or requirements of this Resolution, other resolutions of the Authority including Industrial Pretreatment Requirements, any written directions issued by the Authority, or any Wastewater Discharge Permit or other permit issued under the provisions of this Resolution, or other resolutions adopted by the Authority.

Article 208. Connection Lateral. That part of a Building Sewer extending from the Sewage Collection System to the property line of an Improved Property. Also known as a Connection Sewer.

Article 209. Cooling Water. The water from any use such as air conditioning, cooling or refrigeration, which does not come into contact with any product, byproduct or waste, and to which the only Pollutant added is heat.

Article 210. Customer Sewer. That part of a Building Sewer extending from the property line of an Improved Property to the Improved Property. Also known as a Service Line or Customer Lateral.

Article 211. Department of Environmental Protection. (PADEP). The Department of Environmental Protection of the Commonwealth of Pennsylvania, or any department or agency of the Commonwealth succeeding to the existing jurisdiction or responsibility of the Department of Environmental Protection.

Article 212. Discharge, Discharges, or Discharged. The conveyance of any water or Wastewater into the Sewer System.

Article 213. Domestic Use. A property which is intended to be used for continuous or periodic habitation by human beings in a single-family unit.

Article 214. Domestic Wastes. Normal household wastes from kitchens, water closets, lavatories and laundries, or any waste from a similar source and possessing the same characteristics.

Article 215. Equivalent Dwelling Unit (EDU). A dwelling consisting of a room or group of rooms, house trailer, or other enclosure occupied or intended for occupancy as a separate living quarters by a family or other group of persons living together or by persons living alone, excluding college and institutional dormitories. The objective measurement or typical daily flow for an EDU shall be 90 gallons per day per capita times the average number of persons per household as established by the most recent census data provided by the United States Census Bureau.

Article 216. Garbage. Solid or semi-solid wastes resulting from the preparation, cooking, and dispensing of food, and from the handling, storage, and sale of produce.

Article 217. Groundwater. Water which is contained in or passing through the ground.

Article 218. Improved Property. Any property within the Township upon which there is

erected a structure intended for continuous or periodic habitation, occupancy or use by human beings or animals and from which structure Sanitary Sewage or Industrial Wastes shall or may be Discharged.

Article 219. Industrial Use. A property which is intended to be used in whole or in part for the manufacture, processing, conversion, or assembly of any product, commodity, or article.

Article 220. Industrial User (IU) or User. Any contributor who discharges Industrial Waste to the Sewer System that is a source of indirect discharge.

Article 221. Industrial Waste. Any solid, liquid, gaseous substance, waterborne waste, or form of energy, which is produced as a result, whether directly or indirectly, of any industrial, manufacturing, trade or business process or activity, or in the course of developing, recovering or processing of natural resources and which is Discharged into the Sewer System; but not Cooling Water or Sanitary Sewage. Any Wastewater which have those characteristics of unacceptable sanitary sewage or contains Industrial Waste and which is discharged from an industrial manufacturing trade or business premises is considered Industrial Waste for the purposes of this resolution.

Article 222. Large User Properties. A property that averages 175,000 gallons of monthly metered water consumption in the preceding six (6) months.

Article 223. Manhole. A structure allowing access from the surface of the ground to a Sewer.

Article 224. Noncompliance. Not in Compliance.

Article 225. Occupied Building. Any structure erected and intended for continuous or periodic habitation, occupancy or use by human beings or animals, and from which structure

sanitary sewage or use by human beings or animals, and from which structure sanitary sewage or industrial wastes is, or may be discharged.

Article 226. Owner. Any Person vested with ownership, legal or equitable, sole or partial, of an Improved Property.

Article 227. Person. Any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. The masculine gender shall include the feminine, the singular shall include the plural where indicated by the context. This definition includes all Federal, State, and local government entities.

Article 228. Plumbing Code. The official Township rules and/or regulations for the design and installation of a Building Sewer , any other Sewer plumbing or any other plumbing within an Improved Property which the Township and/or Authority may adopt or amend by Ordinance or Resolution from time to time.

Article 229. Properly Shredded Garbage. The waste from the preparation, cooking and dispensing of food and from the handling, storage and sale of produce that have been shredded to such degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers with no particle greater than one-half (1/2) inch in any dimension.

Article 230. Public Sanitary Sewer System. All sanitary or combined sewers, all pumping stations, all force mains, all sewage collection systems, all sewage treatment works, and all other sewage facilities owned or leased and operated by the Authority for the collection, transportation and treatment of sanitary sewage and industrial waste together with their appurtenances, and any additions, extensions or improvements thereto. It shall also include sewers within the Authority's

service area which serve one or more persons and discharge into the public sanitary system even though those sewers may not have been constructed by the Authority and are not owned or maintained by the Authority. It does not include separate storm sewers or culverts which have been constructed for the sole purpose of carrying storm and surface runoff, the discharge from which is not and does not become tributary to the Wastewater Treatment Facility.

Article 231. Resolution. (this Resolution). When capitalized, the term Resolution refers to this Resolution.

Article 232. Sanitary Sewage. The normal water- carried Domestic Wastes from any Improved Property or wastewater from residential users containing human and customary household wastes, or such wastes from commercial and industrial establishments, but excluding: industrial wastes, effluent from septic tanks or cesspools; rain, snow, or stormwater; groundwater; or other collected water from roofs, drains, or basements.

Article 233. Sanitary Sewer. A Sewer carrying only Sanitary Sewage or Industrial Wastes, and to which storm, surface, or ground waters are not intentionally admitted.

Article 234. Sanitary Sewer Overflow. Untreated or partially treated sewage overflows from a sanitary sewer collection system.

Article 235. Septic Tank Waste or Holding Tank Waste. The sewage, liquid, and/or solid material from a septic tank, cesspool, or similar Domestic Waste treatment or containment system, or waste from holding tanks such as those found in vessels, chemical toilets, septic tanks, campers, vacuum-pump tank trucks, or house trailers.

Article 236. Service Line. A Customer Sewer as defined in Article 210.

Article 237. Sewage. Sanitary sewage, human excrement, gray water (household showers,

dishwashing and clothes washing operations, etc.) and industrial wastewater carried either separately or in combination.

Article 238. Sewage Collection System. All facilities owned and operated by the Authority, as of any particular time, used or usable for collecting, transporting, pumping and disposing of Wastewater, which facilities are connected to and served by the Sewage Treatment Plant.

Article 239. Sewage Treatment Plant or Wastewater Treatment Facility (Plant). That facility owned and operated by the Bloomsburg Municipal Authority, which is designed to provide treatment of Wastewater and discharge of treated effluent to the environment.

Article 240. Sewer. A pipe or conduit for conveying sewage, wastewater or stormwater.

Article 241. Shall & May. "Shall" is Mandatory: "May" is permissive.

Article 242. State. The Commonwealth of Pennsylvania.

Article 243. Storm Sewer. A Sewer designed and constructed for the purpose of carrying storm water, surface water, groundwater drainage, etc. and to which Sanitary Sewage or Industrial Wastes are not intentionally admitted, Storm Water Sewers are not part of the Sewage Collection System.

Article 244. Storm Water Runoff. Any flow of water occurring during or following any form of natural precipitation and resulting therefrom, including snowmelt.

Article 245. Township. The Township of Scott, Columbia County, Pennsylvania.

Article 246. Township User. Any Person who contributes, causes, or permits the discharge of Wastewater from an Improved Property located in the Township into the Sewer System, including all occupants or Township Users of Improved Properties.

Article 247. Unauthorized Discharge. Discharge of an unauthorized waste, or a discharge

which otherwise is not in compliance with the requirements of this Resolution.

Article 248. Unauthorized Waste. Any substance which is discharged into the Sewage Collection System which is not in compliance with the provisions of this Resolution.

Article 249. Unpolluted Water or Waste. Includes but is not limited to, water that has not had its pollutant level raised by the user, or any water or waste containing none of the following: free or emulsified grease or oil, pH less than 6.5 or greater than 9.0; phenols or other substances imparting taste and odor to receiving waters; toxic or poisonous substances in suspension, colloidal state or solution; obnoxious or odorous gases.

Article 250. User. A Township User as defined in Article 246.

Article 251. Wastewater. The liquid and water- carried industrial, domestic wastes, and sewage from residential dwellings, commercial buildings, industrial and manufacturing facilities, and institutions, whether treated or untreated, which is contributed or permitted to enter the POTW.

Article 252. Water Company. Any publicly or privately owned duly authorized agent, corporation or organization which is the approved purveyor of the public water supply within the limits of the Township.

Article 253. Waters of the State. All streams, lakes, ponds, marshes, watercourses, waterways, wells, springs, reservoirs, aquifers, irrigation systems, drainage systems and all other bodies or accumulations of water, surface or underground, natural or artificial, public or private, which are contained within, flow through, or border upon the State or any portion thereof.

SECTION III. SEWER RENTAL CHARGES

Article 301. General.

(A) The Authority is required to provide adequate funds for operation, maintenance and administration costs of the Sewer System. In order to provide these necessary funds, the Authority has been delegated the authority to fix, charge, and collect sewer rentals, charges and other fees from Users of the Sewer System. It is hereby confirmed that the Authority shall be empowered to set such sewer rentals and user fees and other charges and to construct, repair and maintain the sewer facilities as are within the power of the Authority pursuant to the Municipal Authorities act of May 2, 1945, P.L. 382, §1 et seq, as amended from time to time, and such other powers possessed by the Township of Scott or the Authority relating to the administration, operation, maintenance, ownership, construction, repair, and financing of a sewer system.

(B) For the purpose of determining the amount of sewer rental or other fee or charge payable to the Authority, or of determining the character of discharges of Sanitary Sewage and Industrial Wastes to the Sewer System or of determining whether there is compliance with this or any other resolution or rules and regulations of the Authority in connection with the Sewer System, the Authority shall have access at all reasonable times to all properties served by the Sewer System and any meters used for establishing or determining sewer service charges.

(C) The volume of water used, for billing purposes, shall be determined (1) from meters installed and maintained by the Water Company; or (2) from meters approved by the Authority and installed and maintained by the Authority; or (3) when in the opinion of the Authority it is not practical to make such determination in any other manner, from estimates or measurements made by the Authority which estimates or measurements shall be final.

(i) Use of a single meter to measure water used by, or Wastewater discharged at, two or more premises, properties or establishments, is hereby declared to be prohibited. Each User or Industrial User shall have their water usage or Wastewater flow separately metered as required by Article 303, below.

(ii) Uncontaminated water shall be excluded from the sewers and the Authority may allow a deduction for billing purposes from metered water consumption in respect of such water so excluded provided the User, at his sole cost and expense, installs and maintains a deduct meter approved by the Authority.

(iii) Any Non- Residential Establishment may install and maintain a recording and totalizing meter approved by the Authority for measuring the sewage and wastes discharged to the sewers, in which case rental charges shall be computed upon the basis of readings from such meters.

(iv) All meters or other measuring devices not provided by the Water Company, but which may be used under the provisions of this Resolution, shall be furnished, installed and maintained by the Authority. The Authority shall have the right to enter upon the premises of such owner and install the same, and shall be under the control of the Authority and may be tested, inspected, or repaired by Authority employees whenever necessary. The owner of the property upon which such measuring device is installed shall not tamper with, or alter in any manner the measuring device. The Authority shall have the right to read all meters or measuring devices, and they shall be available to Authority employees or agents for meter reading at any reasonable time.

(D) The service period for purposes of billing for sewer services shall be one month in

duration. Bills shall be rendered every thirty (30) days. Sewer rental billings based upon water consumption shall be based on water consumed and metered during the water service period immediately preceding the thirty (30) days in which the sewer billing is rendered. The Authority reserves the right to designate the thirty (30) day billing period for each customer.

Article 302. Sewer Rentals.

(A) There are hereby imposed upon all Users of the Authority Sewer System the following sewer rentals:

(i) Sewer rental charges are hereby imposed upon all owners and Township Users of property now or hereafter served by the Sewer System including those owners of property who have not yet connected but for whom public sewer is available as set forth in Article 401 (A) herein, payable for each service period, for the use of such Sewer System, with the owners and Township Users being jointly and severally liable therefore. The basic charges shall be based upon quantity of water used from any and all sources including a Water Company, wells, streams, et cetera, recorded by a water meter utilized by a Water Company, or installed and utilized by the Authority:

(a) METER RATE SCHEDULE FOR ALL NON "LARGE-USER" PROPERTIES

| <u>MONTHLY METERED WATER CONSUMPTION (GALLONS)</u> | <u>MONTHLY RATE</u> |
|--|---------------------|
| 0 TO 5,000 | \$37.25 |

Plus an additional \$7.45 for each 1,000 gallons (or portion thereof) above 5,000 gallons of monthly metered water consumption.

(b) METERED RATE SCHEDULE FOR ALL "LARGE USER" PROPERTIES

| <u>MONTHLY METERED WATER CONSUMPTION (GALLONS)</u> | <u>MONTHLY RATE</u> |
|--|--------------------------|
| 0 TO 175,000 | \$7.45 per 1,000 Gallons |
| 176,000 TO 300,000 | \$6.45 per 1,000 Gallons |
| OVER 300,000 | \$5.45 per 1,000 Gallons |

The sewer rental rates may be changed by Resolution adopted by the Authority at any regularly scheduled Authority meeting.

(B) Non-Water-Metered Sewer System Users. With the written permission of the Authority, all Users who do not have a metered water supply may provide and install at their own expense a privately owned flow measuring device or devices as specified in Article 303 of Section III of this Resolution. Sewer rental charges shall then be determined as described in Article 302 (A) of Section III. In the event a flow measuring device is not installed, the user shall be charged the minimum monthly sewer rental for users of 5000 gallons per month or less.

(C) Metered Water Not Discharged to Sewer System.

(i) Whenever an Industrial User with a metered water supply uses water that is not Discharged into the Sewer System, unless water is evaporated and the quantity of such evaporated water cannot be directly measured, the quantity of water so used and not Discharged into the Sewer System shall be excluded in determining the sewer rental charge of said Improved Property. Provided however that the quantity of water so used and not Discharged into the Sewer System is measured by a privately owned flow measuring device as specified in Article 303 of Section III of this Resolution; and provided that such Discharge does not violate any other provisions of this Resolution. The privately owned flow meter shall be calibrated annually and a

written record submitted to the Authority. The metering device shall be maintained by the User. If the meter is removed to be repaired, daily records shall be kept during the days the meter is out.

(ii) The sewer rental charge to such Improved Property shall be computed by deducting the water not Discharged to the Sewer System from the total water meter readings. If, in the opinion of the Authority, it is not practical to install a privately owned flow measuring device to continuously determine the quantity of water not Discharged into the Sewer System, an estimated amount or percentage of water not Discharged into the Sewer System may be made by the Authority. Any dispute as to the estimated amount or percentage shall be submitted in writing to the Authority within 30 days after notice of the estimate, whose decision on the matter shall be final and binding for the current year.

Article 303. Privately Owned Flow Measuring Devices.

(A) Non-Metered Water Service Industrial Waste A flow meter or other measuring device shall be installed for the purpose of measuring Wastewater Discharged to the Sewer System from any Improved Property receiving non-metered water service, or any Improved Property which Discharges unmetered water from a private source to the Sewer System.

(B) Optional Flow Meter Any Owner of an Improved Property which Discharges Wastewater to the Authority's Sewer System may notify the Authority, in writing, of his, her, or its desire to have a Wastewater flow meter or other measuring device installed and to have the sewer rental charge and surcharges, if applicable, calculated as set forth in Section III of this Resolution based upon the flow passing through such Wastewater flow meter, or other measuring device rather than the water consumed upon the Improved Property. The Authority shall have

the right to reject any request or application by any Owner for use of a Wastewater flow meter, if the Authority determines that the Wastewater from the Improved Property is either insufficient for accurate measurements by a Wastewater flow meter, or of a type inappropriate for measurement by a Wastewater flow meter. If at any time after installation, the Authority determines that a Wastewater flow meter cannot accurately measure the Wastewater Discharge, the Authority shall have the right to require removal of such Wastewater flow meter.

(C) Required Private Water Meter If the Authority rejects any request or application by any Owner for use of a Wastewater flow meter as outlined in Article 303 (B) above, the Owner of the Improved Property shall be required to furnish and install a private water meter, which shall be the property of the Owner. If the owner of an Improved Property fails to install a private water meter, the Authority shall have the right to enter upon the premises of the Improved Property and install a water meter, the cost of said water meter and installation thereof being paid for by the Owner of the Improved Property.

(D) Installation and Maintenance Prior to the installation of any flow meter or other measuring device described in paragraphs 303 (A), (B), or (C) above, the Owner of said Improved Property shall submit complete plans, drawings, and specifications for each proposed flow meter or other measuring device to the Authority for its review and approval. Any costs associated with the preparation of the plans, drawings, and specifications and the installation of said flow meter or other measuring devices shall be paid for by the Owner of the Improved Property. All flow meters or other measuring devices shall be calibrated, maintained, repaired or replaced at the sole cost of the Owner. Upon receipt of a written request from the Authority, the Owner of said flow meter or other measuring devices shall have it inspected, tested, and repaired

as required, and the results of said inspection, testing, and repair submitted to the Authority in writing. The cost of such inspection, testing, and repair should be paid by the Owner of the meter. The Authority also reserves the right to observe and record information from said flow meter or other measuring devices at all reasonable times. Should the Owner of an Improved Property not maintain, repair, replace, or test said meter or other measuring devices, the Authority may undertake same and bill the Owner accordingly.

Article 304. Collection of Sewer Rentals and Charges

The sewer charges and connection fees imposed by this Resolution shall be and are hereby declared to be a lien on the property served from the date the charges become due and payable, in addition to all other rights of the Authority herein granted, immediately upon any such amount becoming due and owing, without filing or recording. If such charges are not paid, the Authority may file such liens against such property in the office of the Prothonotary of Columbia County and collect the same in the manner provided by law for the filing and collection of municipal liens and claims, or, in the alternative, a civil action against the owner and/or Township User, whose liability shall be joint and several.

The Authority has been delegated authority to set payment due dates and requirements and said Authority has been delegated the authority to assess penalties, including, but not limited to, late payment charges and assessment of court costs and attorney fees, which are deemed proper and appropriate by the Authority, from time to time. All amounts, charges, fees, and penalties due from consumers and users of the Sewer System to the Authority shall constitute liens upon the real estate for which service was provided which gives rise to such fees, charges, claims, and liabilities and such amounts shall become Municipal Liens and shall be recoverable under the

Municipal Lien Law or, in the alternative, in a civil action.

All charges, fees, debts, liabilities, penalties, court costs, and attorney fees under the present Ordinances of Scott Township and Resolutions of the Authority promulgated thereunder or hereunder shall be due and owing from the owners of the properties for which sewer service is provided or with respect to which such payments have been charged, as well as the Township Users of such properties at the time of the provision of service or other event which gives rise to such charges, said liability between the property owner and Township User to be joint and several.

Any and all reasonable attorneys fees and court costs incurred by the Authority before and after the filing of a claim shall be a charge due and payable by the party owing any other fee, charge or liability to the Authority and shall be recoverable as part of a Municipal Lien or in a civil action and the lack of payment of the same may be the basis of a termination of service by the Authority.

(A) Due Date. All sewer rentals and other sewer charges shall be due as of the billing date, as may be established by the Authority and as reflected on the sewer bill.

(B) Responsibility for Payment. The Owner and Township User of any Improved Property shall jointly and severally be responsible for payment of all sewer rental and other sewer charges. Multiple Owners of any Improved Property shall be jointly and severally liable for any such sewer rentals and other sewer charges amongst themselves and any and all Township Users.

(C) Charge for Late Payment. In the event of any default in payment of any sewer rental, penalty, fine or surcharge within thirty (30) days after the due date of such bill or amount, a late charge of one and one-half (1.5%) percent per month of the total of such outstanding sewer

rental, penalty, fine or surcharge will be added to all such amounts due. Every thirty (30) days thereafter an additional late charge in the amount of one and one-half (1.5%) percent of the outstanding sewer rental, penalty, fine or surcharge are billed, excluding any prior late charges, shall be added to all such amounts due.

(D) Payment of Sewer Rentals and Charges on Vacant or Unoccupied Improved Property.

Sewer rental and charges shall accrue and be payable for all periods during which an Improved Property has its Building Sewer connected to the Authority's Sewer System, irrespective of occupancy or at such time as public sewer is available to the property. Provided, however, that after the Improved Property has remained vacant and unoccupied for six (6) full monthly billing periods, the Authority may relieve the Owner of the Improved Property from further sewer rental and charges during continuance of vacancy or nonuse, if all water connections and sources from which water is used on the Improved Property and all other utilities shall be shut off and sealed or otherwise secured against use including actual disconnection of the water meter, during such period to the satisfaction of the Authority.

(E) Reoccupied Improved Property. When a vacated Improved Property is reoccupied, the Owner shall immediately notify the Authority in writing of reoccupancy and the date water to the Improved Property was turned on. Sewer rental charges for such reoccupied Improved Property shall be determined from the date of actual reoccupancy or the date the water is turned on, whichever is earlier. Failure to notify the Authority shall result in the Owner being charged double the typical user charge for that Improved Property for each month the property was occupied without the Authority's knowledge.

(F) Payment of Sewer Rentals When Property Owner/Occupant is Deceased or in a Nursing Home or Personal Care Facility.

(i) In the event an Improved Property is Owner occupied and the Owner Occupant has died or is in a nursing home or personal care facility and ALL utilities at the Improved Property are disconnected, including water service, the Authority may relieve the Owner Occupant of sewer rental and charges during such time. The Authority shall require the Owner Occupant or his/her representative to sign an agreement in a form acceptable to the Authority to be eligible for this waiver of sewer rental charges.

(ii) In the event an Improved Property has been Owner occupied and the Owner Occupant has died or is in a nursing home or personal care facility, upon the written request of the Owner or his or her legal representative, the monthly sewer rental shall be \$16.00 per month provided: (a) some utilities remain connected; and (b) the Improved Property is advertised for sale; and (c) the Improved Property remains continuously unoccupied.

(G) Failure to Pay Sewer Rentals and Charges. Upon the failure of any Person to pay in full any sewer rental, rate, charge, or surcharge within thirty (30) days after the due date for such bill, the Authority shall have the right to terminate sewer service to the Improved Property. After payment of all delinquent bills against such Improved Property, service may be restored upon payment of all expenses which have been incurred by the Authority in terminating and restoring such service.

SECTION IV. MANDATORY CONNECTION OF SANITARY SEWAGE TO PUBLIC SANITARY SEWAGE SYSTEM REQUIRED; CONSTRUCTION REQUIREMENTS AND PROHIBITED CONSTRUCTION AND UNLAWFUL USE AND CONNECTIONS; RIGHT OF ACCESS OF AUTHORITY PERSONNEL AND AGENTS

Article 401. Connection to Sewage Collection System.

(A) Mandatory Connection. The public sewer system shall be deemed available to properties and premises if such property lines are located within one hundred fifty (150) feet from a sewer main, measured along a street, alley, or easement of the public sewer system. All properties in which water supply facilities exist, whether by well or public supply and whether connected or disconnected, shall connect to the public sewer system if the public sewer system is available.

(B) Failure of Improved Property to Connect to Sewage Collection System. If, after the expiration of thirty (30) days from the date of a written notice to connect, any Owner of an Improved Property to which the public sewer is available, shall have failed to connect therewith as required by this Section, the Owner fails to make such connection period, the Authority may make such connection and collect the cost thereof, as a charge assessed hereunder, from such Owner by a municipal claim or in a civil action. The written notice shall be made by either personal service or by certified mail sent to the last known address of said Owner, effective upon sending.

(C) Connection of a Double Dwelling Unit. An Improved Property which is a double Dwelling Unit shall be connected to the Sewage Collection System as provided by this Resolution.

(D) Determining Location of Sewage Collection System. The Owner of an Improved

Property to be connected and/or his contractor or plumber acting as his duly authorized agent is solely responsible for determining the precise depth of the Sewage Collection System prior to the construction of any Improved Property or Building Sewer in the case of an existing Improved Property. The Authority assumes no responsibility for any costs arising out of the failure of the Owner or agent to determine prior to the construction of any Improved Property or Building Sewer the precise depth of the Sewage Collection System regardless of any information that may be made available by the Township.

(E) Prohibition of Extraneous Water. No Person shall make connection of roof downspouts, exterior foundation drains, areaway drains, sump pumps, floor drains, or other sources of surface runoff or ground water to the Sewage Collection System or to a Building Sewer which in turn is connected directly or indirectly to the Sewage Collection System.

(F) Testing of Connection. The Owner, or his representative shall notify the Township Code Enforcement Officer at least twenty-four (24) hours before actual connection and testing of a Building Sewer into the Sewage Collection System is to be accomplished. No such connection or testing shall be accomplished except in the presence of the Township Code Enforcement Officer, and shall be accomplished in a manner satisfactory to said Township Code Enforcement Officer. No portion of the Building Sewer shall be covered until it has been inspected, tested, and approved, in writing, by the Township Code Enforcement Officer. If any part of a Building Sewer is covered before being so inspected, tested, and approved, it shall be uncovered for such inspection and testing at the cost and expense of the owner.

Article 402. Application for Permit to Connect to Sewage Collection System.

(A) Application For Improved Property.

(i) All Owners of Improved Property in the Township who receive a written notice to connect to the Sewage Collection System under Article 401(B), and all Owners of Improved Property in the Township who are subject to the Mandatory Connection provisions of Article 401(A), shall be required to make an application, on a form furnished by the Authority, for the construction of a Building Sewer to serve the Improved Property. Such application shall require, as a minimum, the Owner of the Improved Property to indicate: (a) whether Sanitary Sewage and/or Industrial Waste will be Discharged through the Building Sewer; (b) that the Owner agrees to pay all lawful charges for Sewage and/or Industrial Waste Discharged; (c) that the Owner will notify the Authority in writing upon change of Owner; (d) and that the Building Sewer will be in continuous use for at least one (1) year.

(ii) Owners of Improved Property who desire to Discharge Industrial Waste through the Building Sewer into the Sewage Collection System may also be required to furnish additional information as required by Authority Resolution Number 1-2003, as amended.

(iii) The application must also contain any other information as may be required by this Resolution.

(iv) The application must be signed by the Owner of the Improved Property, his duly Authorized Representative, and all other Persons having interest of record in the Improved Property.

(B) Issuance of Permit. If the information contained on the application described in Paragraph A above is complete and satisfactory to the Authority, and the appropriate fees as

required by Article 501 of Section V of this resolution have been paid, the Authority will issue a permit for the connection of the Improved Property to the Sewage Collection System.

(C) Displaying of Permit. The permit required by this Resolution shall be prominently displayed at the site of the work, at all times, during construction of a Building Sewer and connection of a Building Sewer to the Sewage Collection System.

Article 403. Construction of Building Sewer to Sewage Collection System.

All sewer facilities, including laterals, lines, meters, and other appurtenant facilities, shall be installed pursuant to the specifications then in effect as promulgated and established by the Authority or its duly authorized employees or agents.

(A) Construction Requirements. All Building Sewers, which consists of a Connection Sewer and a Customer Sewer shall be constructed in accordance with the requirements of this Resolution, the Township Plumbing Code, or any other applicable regulations of the Authority.

(B) Connection Lateral Available. If the Connection Lateral is in place and available for use, the Owner of the Improved Property shall construct or have constructed the Customer Sewer and connect it to the Connection Lateral. The Authority shall be notified prior to such connection to provide for inspection of the Customer Sewer and the connection. All costs associated with the construction of the Customer Sewer and the connection are the responsibility of the Owner of the Improved Property. Said Owner is also responsible for all other fees of the Township relative to this Resolution.

(C) Connection Lateral Not Available. If the Connection Lateral is not in place, the Authority shall construct the Connection Lateral or have the Owner of the Improved Property construct the Connection Lateral along with the Customer Sewer. If the Authority constructs the

Connection Lateral, said Owner will be responsible for payment of a Connection Fee as well as all other fees provided for in this Resolution. The provisions for notification and inspection and the payment of all cost and fees associated with the construction undertaken by said Owner shall be as set forth in Articles 401 and 402 above and Section V herein.

(D) Prohibited Connections.

(i) No privy, vault, cesspool, sinkhole, septic tank, mine hole or similar receptacle for human excrement shall be erected, constructed, used, or maintained at any time upon any Improved Property which had been connected to the Sewage Collection System or which shall be required under Paragraph (A) of Article 401 of Section IV to be connected to the Sewage Collection System.

(ii) Upon connection to the Sewage Collection System, any existing privy, vault, cesspool, sinkhole, septic tank, mine hole, or similar receptacle for human excrement in existence shall be abandoned and, at the discretion of this Authority, shall be cleansed and filled at the expense of the Owner of such Improved Property and under the direction and supervision of this Authority; and any such privy, vault, cesspool, sinkhole, septic tank or similar receptacle not so abandoned and, if required by this Authority, cleansed and filled, shall constitute a nuisance and such nuisance may be abated as provided by law, at the expense of the Owner of such Improved Property.

(iii) No privy, vault, cesspool, sinkhole, septic tank, mine hole or similar receptacle for human excrement shall presently or at any time shall be connected to the Sewage Collection System.

(iv) In the event of the failure by any Owner of an Improved Property to clean and fill

any privy, vault, cesspool, sink hole, septic tank, mine hole, or similar receptacle for human excrement, the Authority may perform such work and collect the costs thereof from such Owner by a municipal claim, or in an action in assumpsit.

(E) Unlawful Connections. If any Owner or tenant of an Improved Property should make any connection to the Lateral or the Sewage Collection System without a permit from the Authority, or allow any Pollutant to be Discharged into a Lateral or the Sewage Collection System except as provided by this Resolution or violate any of the provisions with respect to this Resolution, and shall after ten (10) days of receipt of written notice from the Authority fail or neglect to abate such condition, the Authority may, at its option, enter upon the Improved Property and abate the condition, charging the cost thereof to the Owner of the Improved Property; or the Authority may by appropriate legal action proceed to compel said Owner of said Improved Property to abate such condition. In addition to any other remedies available, the Authority, upon failure or neglect of said Owner to comply with any provisions of this Resolution, may enter the Improved Property and at the Owner's cost, disconnect the said Improved Property from the Sewage Collection System and may require the payment of a fee for reconnection and all cost and expenses as a condition for reconnection. The Authority may file a municipal lien against the Improved Property for any and all costs incurred by the Authority in abating such condition, together with such additional charges as may be permitted by applicable law.

(F) Penalty for Violation. Any Person who shall violate any provision of this Section shall, upon conviction thereof, be sentenced to pay a fine of not more than one thousand dollars (\$1,000.00) plus costs and, in default of payment of said fine and costs, to a term of

imprisonment not to exceed thirty (30) days. Each day that a violation of this Section continues shall constitute a separate offense.

Article 404. Right of Access. The Authority, its agents and employees, shall be provided access to all properties served by the Sewer System for inspection, repair, replacement, and maintenance of sewer facilities, including, but not limited to, laterals, pipes, meters, junctions, and other facilities, including those upon private property. The Authority shall engage in such inspection, repair, replacement, and maintenance at reasonable times and upon the provision of reasonable notice, except in the case of emergencies and the potential for immediate threat to public health and welfare, in which case, notice shall be given to the property owner as soon as possible thereafter, in any reasonable manner. Access rights hereunder shall be self-executing, however, the Municipal Authority, its agents and employees are authorized to secure a warrant authorizing and requiring access for the purposes set forth herein.

SECTION V. TAPPING FEES, CONNECTION FEES, AND CUSTOMER FACILITIES FEES

Article 501. No person shall connect any improved property with any part of the Sewer System without first making application for and securing a permit, in writing, from the Authority, as provided for in the Connection Ordinance of the Township. Such application shall be made on a form to be provided by the Authority.

Article 502. Charging of Tapping Fee, Connection Fee and Customer Facilities Fee. This Authority hereby does impose the following enumerated fees pursuant to 53 Pa. C.S. §5607 (d) (24) of the Authorities Act:

A. TAPPING FEE

A "Tapping Fee" shall be payable by the owner of an improved property in the area served by the Sewer System who desires to or is required to be connected to the Sewer System pursuant to the Connection Ordinance of the Township then in effect requiring such connection, or otherwise has connected or hereafter connects to the Sewer System. Such Tapping Fee shall be the product of the applicable amount (based on date of payment) times the number of "Equivalent Dwelling Units" constituting such improved property.

As of the effective date of this Resolution, the Tapping Fee charged by the Scott Township Authority shall be \$2,000.00 per Equivalent Dwelling Unit. This Tapping Fee does not include any additional Tapping Fee that may be charged by the Bloomsburg Municipal Authority or any other municipality or municipal authority.

"Equivalent Dwelling Unit" shall mean the unit of measure by which the applicable Tapping Fee shall be imposed upon each improved property served by the Sewer System, as determined in this Resolution or any subsequent Resolutions of this Authority, according to the tables set forth below.

The minimum Tapping Fee applicable to any improved property served by the Sewer System shall be the applicable amount times one Equivalent Dwelling Unit. To this minimum Tapping Fee shall be added the applicable charge for each additional Equivalent Dwelling Unit that is determined to be applicable to such improved property.

The methods for determining the number of Equivalent Dwelling Units applicable to each improved property in the area served by the Sewer System, in the discretion of the Authority,

shall consist of the following, to be applied on a case by case basis, in the discretion of the Authority:

COMPUTATION OF EQUIVALENT DWELLING UNITS

1. Based on Description of Property

RESIDENTIAL TABLE

| <u>Classification of Property</u> | <u>Equivalent Dwelling Units</u> |
|-----------------------------------|----------------------------------|
| Single Family Dwelling | 1 |
| Two Family Dwelling | 2 |
| Trailer or Mobile Home | 1 |
| Apartment House, Per Rental Unit | 1 |

NON-RESIDENTIAL TABLE

| <u>Classification of Property</u> | <u>Equivalent Dwelling Units</u> |
|--|----------------------------------|
| Hotel, Motel, Rooming House of Residential quarters per three (3) rental rooms | 1 |
| Restaurant, Club, Tavern, per twelve (12) seats, or fraction thereof | 1 |
| Restaurant, Club, Tavern, per Seats per Banquet Room: | |
| 40 Seats or less | 1 |
| Each additional 20 Seats, or fraction thereof | 1/2 |
| Restaurant, Club, Tavern, Open 24 hours per day: | |
| For each 15 seats or fraction thereof, an additional | 1/2 |

Service Station, Automobile Repair, Garage:

| | |
|---|-----|
| 2 Bays or Less | 1 |
| for Bays - 3 & 4 Each | 1/2 |
| Each Additional 3 Bays or any part of 3 | 1 |
| Each Additional 4 Bays or any part of 4 | 1 |
| Bays 11 - 16 or part thereof | 1 |
| Bays 16 - 22 or part thereof | 1 |
| Bays 22 - 30 or part thereof | 1 |
| Bays over 40 or part thereof | 1 |

New Car Dealers:*

| | |
|---|-----|
| Seven or Less Employees | 1 |
| Each Additional 3 Employees or fraction thereof | 1/2 |

*Employees can be owners or corporation officers
of New Car Garages

| | |
|----------------------------------|---|
| Car Wash, Self-Service, each Bay | 2 |
|----------------------------------|---|

Barber Shop:

| | |
|--|-----|
| 4 Chairs or less | 1/2 |
| Each Addition 2 Chairs or fraction thereof | 1/2 |

Beauty Shop, not attached to and forming a part of the
Owner's Residence:

| | |
|--|-----|
| 10 Chairs or less | 2 |
| Each Additional 6 Chairs or fraction thereof | 1/2 |

Beauty Shop Attached to and forming a part of the
Owner's Residence:

| | |
|--|-----|
| 5 Chairs or less | 1 |
| Each Additional 5 Chairs or fraction thereof | 1/2 |

Laundromat:

| | |
|-------------------------|-----|
| First 6 Washers | 6 |
| Next 6 Washers | 3/4 |
| Everything Over 12 each | 1/2 |

Dry Cleaner, With Water Cooling Tower:

| | |
|-------------------------------------|---|
| Minimum of | 1 |
| With Laundry, additional per washer | 1 |

Dry Cleaner, Without Water Cooling Tower:

| | |
|-------------------------------------|---|
| Minimum of | 2 |
| With Laundry, additional per washer | 1 |

Laundry: Minimum of 2

Stall Market:

Per Each Individual Stall or Sales Space 3/4

Nursing Home, Rest Home, Hospital:

Per Each 3 Beds 1

Retail Store, Office or Business Not Attached to Owner's
Residence and all Non-Residential Classifications above,
In addition to prescribed units, with the exception of
Service Station, Automobile Repair and Garages:

6 or Less Employees 1

| | |
|--|-----|
| Each Additional 3 Employees or fraction thereof | 1/2 |
| Any other Non-Residential Facility Not Specifically covered by other Section or this Ordinance: | |
| 6 or Less Employees | 1 |
| Each Additional 3 Employees or fraction thereof | 1/2 |
| Any Non-Residential User having Garbage Grinder of 3/4 H.P. or more per each Grinder in addition to the EDU set forth above. | 1 |

PUBLIC BUILDING TABLE

| <u>Classification of Property</u> | <u>Equivalent Dwelling Units</u> |
|--|----------------------------------|
| Church: | |
| For Worship Services, Church School | 1 |
| For Non-sectarian School, Per School Rate herein | |
| For Banquets or Dinners at Rate of more than three (3) per quarter | 1 |
| Post Office | 1 |
| School, Public, or Private: | |
| Toilet Facilities Only, per 25 pupils | 1 |
| Toilet Facilities & Kitchen, per 19 pupils | 1 |
| Toilet Facilities & Gymnasium, per 17 pupils | 1 |
| Toilet Facilities, Kitchen & Gymnasium per 14 pupils | 1 |

Equivalent Dwelling Units applicable to businesses, retail stores and commercial offices may be determined on the basis of the average number of full and part connected to the Sewer System in

accordance with the Connection Ordinance of the Township, or otherwise is connected or hereafter connects to the Sewer System.

2. Based on Type of Water Service Connection

The number Equivalent Dwelling Units applicable to businesses, retail and commercial facilities may be determined, on a case by case basis, in the discretion of the Authority, according to the applicable size or number of the water service connection or connections required, or deemed required, for each such business, retail or commercial facility constituting the improved property.

The Tapping Fee shall be due and payable the earlier of: (1) the time application is made to the Authority or the Township to make any such connection to the Sewer System, as provided in Section 1, or, if applicable, the date when the Township shall connect any such improved property to the Sewer System, at the cost and expense of the owner, when such owner shall have failed to make such connection as required by the Township pursuant to the provisions of the Connection Ordinance then in effect requiring such connection, or (2) in the case of properties initially to be connected to the completed Sewer System, the date which is sixty (60) days after the date of issuance by the Township of the notice to connect, or (3) for those properties already connected to a Sewer, the date which is set forth in a notice issued by the Authority that the Tapping Fee is due with respect to such property.

B. CONNECTION FEE

A "Connection Fee" of \$500.00 shall be payable by the owner of an improved or unimproved property in the area to be served by the Sewer System for whom the Authority acquires and constructs a lateral or other sewer line extending from the Authority main to the

property line or curb stop of such property. In lieu of the payment of such Connection Fee, the Authority may require the construction and dedication of such facilities by the owner or owners making such connection and in such case an inspection fee of \$30.00 shall be charged for each connection.

C. CUSTOMER FACILITIES FEE

A "Customer Facilities Fee" shall be payable by the owner of an improved property in the area served by the Sewer System who desires to or is required to be connected to the Sewer System pursuant to the Connection Ordinance of the Township then in effect requiring such connection, or otherwise has connected or hereafter connects to the Sewer System and for whom the Authority purchases and installs a water meter and a radio read meter reading device at the owner's property.

Article 503. Calculation of Tapping Fee, Connection Fee and Customer Facilities Fee. Calculation and itemization of the maximum Tapping Fee, Connection Fee and Customer Facilities Fee pursuant to the Authority's Act as set forth in Exhibits "A", "B" and "C" attached hereto and made a part hereof, which shall be amended, from time to time, to reflect any changes in the underlying costs, capacity or other factors used in calculating such maximum fees, which amendments shall become a part of this Resolution as though originally set forth herein.

Article 504. Payment of Tapping Fee, Connection Fee and Customer Facilities Fee. All Tapping Fees, Connection Fees and Customer Facilities Fees shall be payable to the Treasurer of this Authority or to such other officer or representative of this Authority as shall be authorized, from time to time, by resolution of this Authority, to accept payment thereof.

Article 505. Enforcement of Payment of Tapping Fee, Connection Fee and Customer Facilities Fee. Payment of Tapping Fees, Connection Fees and Customer Facilities Fees, imposed by this Authority pursuant to this Resolution shall be enforced by this Authority in any manner appropriate under laws at that time in effect and shall, at the discretion of the Authority, constitute a lien on the property of the owner who has failed to pay the appropriate fees.

SECTION VI. SEVERABILITY

Article 601. Constitutional. In the event any provision, section sentence, clause or part of this Resolution, or the application of any provisions hereof shall, for any reason, be held to be invalid, such invalidity shall not affect or impair any remaining provision, section, sentence, clause or part of this Resolution, it being the intent of the Authority that such remainder shall be and shall remain in force and effect. Provision of headings in this Resolution are solely for convenience and shall have no effect on the legal or technical interpretation of any provision or requirement.

Article 602. Repeal and Conflict. Resolutions 6-20-05, No. 4-2007, and No. 1-2009 are specifically repealed hereby. All other Resolutions or Ordinances and parts of other Ordinances or Resolutions inconsistent or conflicting with any part of this Resolution are also hereby repealed to the extent of such inconsistency or conflict as of the effective date of this Resolution.

Article 603. Additional Resolutions Authorized. The Authority reserves the right to, and may, from time to time by Resolution, adopt, revise, amend, and readopt further rules and regulations as it deems necessary or appropriate by said Authority with respect to the Discharge of Sewage and/or Industrial Waste to the Sewer System, and the construction, connection,

operation, maintenance, repair, alteration, and inspection of Building Sewers, Sanitary Sewers, and other fixtures and appurtenances in the Township, and the determination, fixing, and collection of rentals, charges, and fees from Users of the Sewer System.

Article 604. Waiver. The Authority has the right to waive any requirement under this Resolution.

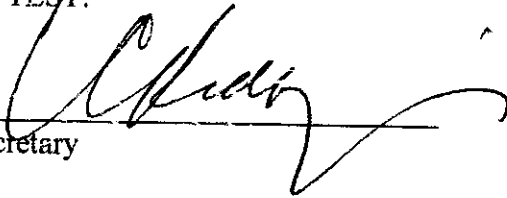

SECTION VII. EFFECTIVE DATE

This resolution shall be in full force and effect as of January 1, 2010.

DULY ADOPTED this 21st day of December, 2009, by the Scott Township Authority, Scott Township, Pennsylvania, in lawful session duly assembled.

DOUGLAS SITLER, Chairman

TAPPING FEE'S ARE COMPRISED OF UP TO 4 SEPARATE COMPONENTS.

1. CAPACITY PART
2. DISTRIBUTION/COLLECTION PART
3. SPECIAL PURPOSE PART
4. REIMBURSEMENT PART

The Authority has elected to use the first two components in setting the Tap Fee.

The Special Purpose Part may be used by the Authority for Future Projects and these calculations contain an example for a most recent Project.

The Reimbursement Part is only charged to users of specific facilities whose fee is required by written agreement to be collected to reimburse persons who constructed such facilities.

AUTHORITY SYSTEM COMPONENTS

Capacity Component is the Kinney Run Interceptor

Collection Component is the Original Sewer Construction including Pump Stations

Component Capitol Costs

Original Sewer Construction From Pennvest App (Exhibit A)

Total Project Cost \$10,597,570

Minus Construction Cost \$ 8,222,660

Other Project Costs = \$ 2,374,910

Other Project Costs are 28.883% of Construction Costs

Capacity Component = Kinney Run Interceptor + Cost of Purchasing Treatment

Construction Cost \$ 356,475

+ 28.883% Share of Other Project Costs + \$ 102,959

= \$ 459,434

+ Initial Payment To Bloomsburg Authority = \$ 25,000

Capacity Capitol Cost = \$ 484,434

Collection Component

Original - Kinney Run = \$10,597,570 - \$459,434.00 =

Collection Capitol Cost = \$ 10,138,136

Capacity Component Percentage = 4.34%

WASTEWATER SYSTEM TAPPING FEE ASSUMPTIONS

System Constructed 12 yrs ago (Estimate 18-Contract 1 date July 1993)

System Design Capacity 1mgd At Plant, (Exhibit C – Page 13 Agreement with Bloomsburg)

Outstanding Principal Debt May 2005 is \$ 3,021,234.62 @ 3.5%

Capacity Part of Outstanding Debt is 4.34% of Total = \$130,979

Collection Part is Total of \$ 3,021,234.62 - \$130,979 = \$ 2,890,256

Financing Costs (Pennvest \$821,415 + Bank \$519,618) = Total \$1,341,033

Capacity Part of Outstanding Debt is 4.34% of Total = \$ 58,201

Collection Part is Total of \$1,341,033 - \$ 58,201 = \$ 1,282,832

Inflation on Capitol Cost (ENR Index, 12 years) (Exhibit B) =

1993 Index=5210 April 2005 Index=7398 = 42% Increase

Household Flow Assumed Usage can be calculated either of

A. 90 gpcd x 2.31 residents per house = 208 gpd/household

B. 12 month metered +10% = 4,777,083 +10% = 5,250,391gal
Divided by 1018 households and 12 months
= 172 gpd/household

C. 12 month flow for subdivisions of ten lots built last five yrs
The lesser of three or all the subdivisions

We do not have at least three in last five yrs over ten lots

**SCOTT TOWNSHIP AUTHORITY
CALCULATION OF CONNECTION FEE**

THE CONNECTION FEE COVERS THE COST OF THE CONNECTION FROM THE SEWER MAIN TO THE PROPERTY LINE OF THE PROPERTY BEING CONNECTED.

THE CONNECTION FEE SHALL BE BASED ON ONE OF THE FOLLOWING METHODS IN THE DISCRETION OF THE AUTHORITY.

METHOD 1

THE PROPERTY OWNER CONSTRUCTS THE LATERAL FROM THE MAIN TO HIS PROPERTY LINE.

THE CONNECTION FEE SHALL BE CALCULATED AS FOLLOWS:

| | | |
|--|----|-------|
| COST OF INSPECTION..... | \$ | 30.00 |
| APPLICATION & ADMINISTRATIVE COST..... | \$ | 0.00 |
| <hr/> | | |
| = TOTAL CONNECTION FEE..... | \$ | 30.00 |

METHOD 2

THE PROPERTY OWNER CONNECTS TO AN EXISTING LATERAL. THIS FEE IS BASED ON THE AVERAGE COST OF LATERALS INSTALLED AS PART OF CONTRACT 6 OF ORIGINAL PROJECT (ED KRASAVAGE CONSTRUCTION CONTRACT 1993-94).

THE CONNECTION FEE SHALL BE AS FOLLOWS BASED ON CONTRACT 6:

| | | |
|--|----|----------|
| ITEM 6" LATERAL PIPE..... | \$ | 2,376.00 |
| WYES..... | \$ | 175.00 |
| SELECT BACKFILL..... | \$ | 0.00 |
| LAWN RESTORATION..... | \$ | 191.20 |
| PAVE RESTORATION..... | \$ | 0.00 |
| <hr/> | | |
| TOTAL CONSTRUCTION COST..... | \$ | 2,742.20 |
| PLUS ENGINEERING COST @ 18%..... | \$ | 493.60 |
| PLUS ADMINISTRATION & APPLICATION COST @ 2%..... | \$ | 54.84 |
| <hr/> | | |
| = TOTAL LATERAL COST..... | \$ | 3,290.64 |

NUMBER OF CONNECTIONS = 7

AVERAGE COST PER CONNECTION = \$ 3,290.64/7= \$ 470.09

NOTE: IF THE LATERALS WERE CONSTRUCTED WITHIN ROADWAYS THE COST PER LATERAL WOULD INCREASE BY \$41.00

BASED ON 10 FEET OF PAVE 4.1 FEET WIDE @ \$1 SQ.FT. THE COST PER LATERAL WOULD INCREASE TO \$512.00

BASED ON THE ABOVE CALCULATIONS THE CONNECTION FEE SHOULD BE

\$500.00 PER CONNECTION

COPY

MUNICIPAL AUTHORITY OF THE
TOWN OF BLOOMSBURG

RESOLUTION 6-14-05.01

It is hereby memorialized that, at a duly convened meeting of the Bloomsburg Municipal Authority, held upon proper notice and consistent with the Sunshine Act, upon motion properly made and seconded, and upon unanimous vote, it was RESOLVED that the Authority hereby promulgates and assesses Tapping Fees [Section III, Article 307 of the Wastewater Facilities Use Resolution 11-08-02.01] as follows:

- A. For users within the Town of Bloomsburg: A Tapping Fee is assessed in the amount of \$411 per equivalent dwelling unit (EDU) of 208 gallons for the capacity part (comprised of interceptor sewers, pumping stations, force mains and Bloomsburg WWTP) and \$313 per EDU for the collection part (comprised of collection sewers, manholes and associated appurtenances) to a maximum of \$5,000 in combination of both the capacity part and the collection part. There shall also be assessed a one-time connection fee of \$250 and shall amend Section III, Article 305 of Resolution 11-08-02.01.
- B. For users in municipalities other than Bloomsburg who are subject to tapping fees assessed by the Municipal Authority of the Town of Bloomsburg : A Tapping Fee is assessed in the amount of \$411 per EDU for the capacity part, up to a maximum of \$2,850.

The definition of EDU shall be as set forth and amend Section II, Article 254 of the Wastewater Facilities Use Resolution 11-08-02.01.

This Resolution to be effective July 1, 2005.

RESOLVED this 14th day of June, 2005.
